KeyMacro is an application for creating your own presentations with ease. This is a PowerPoint clone developed in C#. KeyMacro uses Visual Basic for its core code. In other words, KeyMacro is actually a Visual Basic application that adds PowerPoint-like capabilities to Visual Basic. KEYMACRO Installation: The installation package includes the KeyMacro application itself, as well as a library containing over 600 graphical objects that can be used in your presentations. If you do not have Visual Basic, you can download KeyMacro for free from Please note that KeyMacro is a copyrighted program. You may not copy or distribute the Reveal Audio is an easy-to-use program for Windows 98/Me/2000/XP that lets you record any audio being played on your computer. Just tell Reveal Audio to record the audio and you can stop the audio recording at any time. Reveal Audio can also copy the audio from the speakers to your computer's microphone, and vice versa. A compact, fast and intuitive program. Reveal Audio takes just a few minutes to configure and you're ready to record the next sound. Presenter for PowerPoint 5.5 Presenter for PowerPoint is designed to simplify a presenter's work with PowerPoint. It can generate a reasonable PowerPoint presentation from a list of slides, diagrams, tables, notes and other objects, which are pulled from the application's database. After creation, the presentation is saved as a PPT file, which can be opened and edited in MS PowerPoint. This version also has an intuitive user interface with an editor and a designer for tasks. Its designer allows the creation of objects like charts and graphs, and you can create multiple objects from the same template. Magic Cubes is an advanced VST for creating magic cubes of the most complex effects. The interface allows you to configure all of the parameters of the cubes and you can add more of them. Word to PDF Converter and PDF Creator Free is one of the leading software for creating, converting and editing word documents. With this software, you can convert your Microsoft Word document to PDF format. You can also create your own PDF files from your documents in Microsoft Word. And all your Word document content can be extracted and added to PDF file. PDFr is a fully featured PDF converter for Windows that produces high-quality output and supports the entire PDF specifications. 77a5ca646e
