This is a long version of the "Top SaaS Software Trend for 2014" and "Top SaaS Software Trend for 2015" that I previously posted. This time I'm starting with the top SaaS vendor in the software market and I will go through each software category separately and show why they might be worth it. Of course, the use of SaaS will grow and the categories mentioned here are not comprehensive. At the end of the video, I'll explain which SaaS applications are available in each category.
