What's New in the?

The first set of icons are intended for use as a World of Warcraft Icon Pack and show the beauty of the game's new expansion, War The Burning Crusade This set consists of two files, an ICO file for the game directory and a PNG file for the Launcher itself. The former is a total of 320x320px, with a 16x16px resolution, while the latter is a total of 256x256px, with an 8x8px resolution. The second set of icons are intended for use as a World of Warcraft Icon Pack and shows the beauty of the game's new expansion, War The Burning Crusade. This set consists of two files, an ICO file for the game directory and a PNG file for the Launcher itself. The former is a total of 320x320px, with a 16x16px resolution, while the latter is a total of 256x256px, with an 8x8px resolution. Here is a sample of the icon pack: You will notice that every single one of the icons are in a high resolution and are easily recognizable and viewable. Like mentioned before, it would be impossible to notice any pixelation or have any kind of resolution problems. The settings that can be applied to the icons are unlimited. The pack comes with a.zip and a.sh installer, and as such it is easy to extract and install. Here is a screenshot of how the game directory looks like with all icons installed. Here is a screenshot of the program after installation. In case you have a problem downloading the icons or if you have any questions on how to install them, simply ask and I will do my best to answer any questions you might have. Check out my video tutorial on how to install and use this icon pack. If you want to take this pack to the next level, simply add the Login.lua file to your World of Warcraft directory, and apply the following settings to the Login Screen UI. You can also add in the launcher the settings below if you want to use them in there. This includes the icons
