AutoCAD Crack + 2022

AutoCAD has a family of applications, including AutoCAD LT, AutoCAD Architect, AutoCAD Mechanical, AutoCAD Electrical, AutoCAD Map 3D, and AutoCAD 360. The newest version is AutoCAD Civil 3D 2016. AutoCAD 360 is an architectural-design web application that lets you view and study a drawing from anywhere at any time. With AutoCAD 360, you can easily share your work with colleagues or clients, and with Autodesk 360 cloud storage and sharing, your project and its associated data are always accessible. This page provides links to tutorials, videos, and other resources for the AutoCAD software. Note: The software and software updates are available on a regular basis as new releases are available. The tutorials here are from the last major release (AutoCAD 2014/2015) and might be dated. View and manage AutoCAD drawings using AutoCAD 360 Steps When you create a new drawing in AutoCAD, it saves as a file with the.DWG extension. You can open this drawing in AutoCAD's Drawing Viewer or in a web browser. You can also open a drawing from a website that is hosted by Autodesk, such as MyAutoCAD.com. When you have a drawing open in the Drawing Viewer or in a web browser, you can use AutoCAD 360 to work on the drawing, share it with others, and manage the project. With AutoCAD 360, you can easily work on the same drawing from multiple devices, including: Personal device — laptop, tablet, or smartphone Hosted website — from your home or work computer, or from a remote computer on a network On-premise server — from a local, private network, or on the Autodesk Cloud A drawing created in AutoCAD can be hosted on an Autodesk website, such as MyAutoCAD.com, so that you can access it from anywhere, including devices on a network. Because the drawing you are viewing or editing is a web page on the Autodesk website, you can edit the web page in your web browser, just as you would edit any other web page. When you are finished editing the web page, the web browser sends a "save page" command to the Autodesk website, which then saves the changes to the web page. This

AutoCAD Free X64

Example For a common laser printer, the settings would be as follows: * **Printer Name:** STYLUS NX * **Driver Type:** PictBridge

What's New in the?

You can send review feedback for current drawings directly to the Design Manager. Drawings and component libraries now support the new XREF tag for linking between drawings in a family. This tag represents a two-dimensional reference to a part, assembly or drawing. (video: 11:32 min.) AutoCAD supports direct import of Microsoft Excel files and XLSX files from Microsoft Excel 2016 or newer. Markups are automatically updated when the file is edited outside of AutoCAD. Fixed import issues with CSV and Excel files. Windows icon theme now supports accented characters. Drawings and component libraries now support the new XREF tag for linking between drawings in a family. This tag represents a two-dimensional reference to a part, assembly or drawing. (video: 11:32 min.) AutoCAD is now optimized for 64-bit Windows 10 operating systems. Alignment with source objects is now turned on by default when dragging. "Set object property" is now grayed out when you have multiple options for a value. (video: 10:42 min.) "Auto replace object properties with variables" now works with a variable. New commands for exporting ASCII (txt) and PDF files. In addition, for new users, the following new features are available: Right-click to zoom on the map in 3D models and 3D drawings. Right-click to zoom on the map in the Tool Palette. Create and edit GUIDs with the new GUID command. Draw 3D walls in 2D drawings. Set the Current Dimension and Global Dimension panels to appear on the Main Menu. Save settings in the User Environment window as a profile. Create new profiles using the Profile Manager. Right-click the Zoom In command to toggle display of the Zooming Chart. Right-click the Zoom Out command to toggle display of the Zoom In Chart. Right-click the Zoom In Chart to toggle display of the Zoom Out command. Right-click the Zoom In Chart to toggle display of the Zooming Chart. Right-click the Zoom Out command to toggle display of the Zoom In Chart. Right-click the Zoom In Chart to toggle display of the Zoom Out command. Right-click the Zoom Out command to toggle display of the Zoom In Chart. Right-click the

System Requirements:

Windows 7 - Vista - XP Processor: 1.6 GHz Dual Core (or equivalent) Memory: 1 GB RAM HD: 4 GB available space Video: DirectX 9 Compatible NVIDIA 7 Series or ATI Radeon HD 2000 or above, ATI HD 5000 and above, AMD HD 4000 or above Sound Card: DirectX 9 Compatible sound card, stereo or above Recommended OS: Windows 7 or later DirectX® 9 Compatible NVIDIA 7 Series or ATI Radeon HD 2000 or above, ATI HD
