Hello I have a problem that I'm not able to install the Crack for my Windows 10. Whenever I try to do so it gives a message saying there's a incompatibility with the Microsoft Store.

I tried to add in the activation code for J-World's but it still won't work.

I also tried doing a clean re-install of Windows still it's a similer error.

Does anyone know a fix or can recommend another crack or program to fix the Windows Store error on 10?

Thanks in advance
