The goal of the game is simple, get as far as you can into the sky and leap at the clouds to shoot down other players. Do this quickly as the sky sizzles and the world grows small before your eyes. You can jump further than your counterparts who will eventually land, so try to time each jump to where you can jump the furthest. There's a lot of strategy in the game, even if you just need to know when to jump and when not to. At its lowest difficulty setting, the game is very forgiving, but it's almost certainly too easy for new players.

6/10 Gamespy User Interface: The game looks very high resolution for a mobile title, although it lacks settings to tweak the appearance. You select your gear by tapping on a piece of equipment and then tapping again to place it on the body. Once the pieces are placed, you build your character by moving your finger along the bottom edge of the screen, and once done, tap again to start the fight. The controls are done by touch, but they're not always intuitive to use. If you're not used to them, it can be difficult to use. Just a little input here and there could prove to make the experience more enjoyable.

3/10 Pocket Gamer Storyline: Gameplay and controls aside, the story is pretty dull. There's some challenge, but not much in the way of plot and character.

10/10 Virtual Playground Game Difficulty: There are 2 game modes. The one we reviewed is the Easy mode. While the other is Hard. One difficulty setting will be a little easier than the other. To adjust the difficulty, simply in game click the sky icon, choose 2 points and it will make the enemy hit points lower. For that reason alone, it is recommended you try the game before purchasing.

5/10 GameSpot My thoughts: Skybolt Zack is a game that I wouldn't expect, this is the exact definition of a mobile game. It is an addictive arcade style game for the basic mobile gamer, or to be fair, the snapchat gamer. It's really easy to pick up and play even for a beginner, however it's not for the casual gamer. It's very difficult to stick with for a longer time, and I don't think it's meant to be played for that long. It's got its own niche amongst other games and it's one to play if you do enjoy speed killing.

8/10 Wiffle Gameplay: It's been a long time since I

The Air Wendan spoke, said thusly: It is not that the air gave voice that rebukes you, or any voice, but that you are the more disorienting and penetrating of the two, and the less subject to dissipating. Your voice checks upon the air and the air checks upon your voice. There is no voice that does not check upon the air. Night shrouded me, the cold being pleasant. Cold teeth slid across my cheek and between my lips, nibbled until I shivered. If ever I whispered: Cry-baby, I do, forever cry-baby. —Ozymandias by Percy Bysshe Shelley (1818) From A Creature of Terrible Mien Depicted on an Ivory Carving Head from the Delta of Tartarus, circa 1790 Pain is a particularly forced activity. As what is needed cannot be gleaned or stored or even glowed, that this can be called "pain": what is it but the necessity to make something, be it potion, bread, or a beautiful mansion, for a mouth to consume? It reveals beings, ways, and centers. Pestering, saying, in the West, what it is to be a creature, so that we might be so best. Creature. It is theorized that we are the children of that concept, the family of the creature, and not the children of Language, nor of the Rabbit, or the Haiku, nor of the Dream—or not much of any of these—for the creature not only urges us forward but desires us to be made so. Thus, the Rabbit being nothing but the thing named as Rabbit, hoots, not in praise, but out of the pain of being Rabbit. It wants to be Rabbit. We say: we're creatures of Terrible Mien Depicted. If you just want to play the game, click here! In Tiny Bang Story, you must “click on the unusual colorful landscape by wonderful guitar play” and solve puzzles. The Tiny Bang Story is a game and art project created by four of the most prominent independent game designers. We want to give you a joyful experience while making you happy at the same time. The Tiny Bang Story is the first project ever created with a set mission in mind: to create something truly unique, and to prove that one person can really make a difference. We are a team of talented illustrators, animators, composers, game and movie concept artists, graphic designers, and coders. Our ambition is to create, in the most artistic way possible, a game which people can enjoy. And enjoy while meditating, relaxing or having fun. With the potential of our project, we have been supported by industry luminaries such as: M.K. Reed (an illustrator, and co-creator of Professor Layton games), Dr. Aaron Elliott (an associate professor at Tokyo University), Hiroko Kitano (a writer, and creator of the game, Mugen No Chinkon), Mike Bithell (director and writer of Volume), and many more. The Tiny Bang Story was funded by the European Union through the EU FED project (Fate/Grand Order is no longer out on mobile platforms! A new poster on the Fate/Grand Order portal lists mobile versions of Fate/Grand Order, which have already been released in Taiwan, China, and Indonesia.
