If you wish to become a god of battles and hope to conquer the lands, you'll have to battle your rivals and overcome the hardships that await you. You'll need to be equipped with all the things necessary to survive the battles that lie ahead, such as a sword and armor. Equipment The Equipment is the core element in the Elden Ring game. Equip a set of equipment for character creation. Your equipment shows which fields you can enter, how much progress you have made in the current world, your favor points and a complete field map. The Favour Points You can acquire favor points by killing monsters, recovering the body part, doing actions in the field map such as reading a scroll or opening a chest, or finding a new item. You can accumulate favor points in your favor point gauge at the bottom of the interface while navigating the fields. Field Map The world is divided into "fields", and each field is displayed on the field map. The fields are linked to the equipment and favor points you have. By exploring the fields, you can gain favor points and see which types of monsters dwell in the field. You can also find new items in fields marked with a "Marked field" icon.

- Marked fields: These fields are where we've marked them as special with our coins.
- Ghosted fields: These fields still exist, but they are unseen. Those are the fields where we have seen something.
- Empty fields: These fields are completely empty and we haven't seen anything. If we can, we will equip a specific field map.
- Logged-Out field: When you're logged-out, it's like you were there. You can only see data like the favor point gauge, etc. You can't do any action. When you exit a field during the adventure to find new fields, the field map will automatically be updated.

Battle The adventure begins with a "Story Battle", where you fight monsters to gain favor points. You'll also receive "Mission Battle" quests after completing the Story Battle. These are difficult to complete, so we suggest giving them a try. You will be able to only enter fields where you have the skills to fight monsters. There are three types of monsters that occupy a field: normal monsters, strong monsters, and very strong monsters. These monsters increase in strength when they are repeatedly attacked
