> **Infinite Match Paintball Amongst the custom packed paintball fields in the UK there is a field located in the heart of rural Northamptonshire. With its name reflecting it's unconventional location, many days the only other players to be found are from surrounding synthetic fields that have some tenuous connection to the origina habitat. Backwoods was designed and built by some incredibly talented talented people and picked up on the fact that the only constant in life is change and through the eyes of a travelling entertainer I think I have captured some of that story. I would like to think that Backwoods tries to take the concequences of that rediculous fact and put some quirky and fun on them. What's a society? Is it a commodity? A library of information? Something to do? Or is it a life? Infinite Tournament is a paintball tournament format, where there are no limitations on team size, infact**

you are not even restricted to having a team, and you compete 'as a' player with the winners of each round purchasing the next rounds tickets and thus helping to decide who will or will not particpate in the next round. This format allows for teams of 20+ (that is what the whole thing is based on) and if each team sells their tickets completely the field permits 100 players overall. Who is eligible? Only Active Player/Team members should enter. If you are not a member, we will be asking you to make a payment of £25 + VAT via Paypal only, to which we will then allocate you as a 10/20/40m junior, intermediate, or standard player based on the number of days you have played leading up to the tournament. Because this is THE infactory paintball format that exists in the UK and the UK only, you need to be active in the sport for a period of at least 3 months preceding the tournament. What's it like? Infinite is a classic paintball format based around online live tracking and above all else the great state of the art regulator that you will have a familiar surrounding with. You have a bag sorted for your team and as there will also be a professional tech running and assisting you in the sessions then you should be all set. Sessions are split into 4 rounds (2 Primary and 2 Enhanced) with the Secondary being a third round.
